## BIBLE, ENGLISH:

**The Interlinear Bible.** A Bible so printed that both the Authorised and Revised Versions may be read without difficulty from the same text.

The method adopted is to print in large type such words as are common to both Versions. Where there is a difference between the two, however minute, the one line of large type divides into two parallel lines of smaller type, of which the upper gives the reading of the Revised, and the lower that of the Authorised Version; thus shewing at a glance the position, extent, and nature of every difference between the two Versions.

This book will be read with the greatest interest by all who desire to stand abreast of the latest investigations into the ultimate problems of the physical universe."

We know of no work which sums up so well and so comprehensively German results; the modern psychological and historical methods are abundantly evident in these pages, in which Delbrück has definitely supplanted Curtius. . . . The book is valuable also as a well-arranged treasury for composition purposes, especially setting forth what is strictly Attic usage. . . . His volume is admirably suited to the text-book in use in fifth and sixth Forms, and at the Universities."

THE REVIEW has for its object the presentation by the most competent observers of various administrative and educational problems which to-day confront Oxford and Cambridge. It will also endeavour to represent the characteristic energies whether in thought, research, or action of the two Universities.

Since Oxford and Cambridge still provide a great proportion of the recruits to Church and State and to the Legal, Scholastic, Scientific, and Literary professions, the range of subjects in which the influence of University thought is perceptible covers practically all the issues of public life to-day. In addition to this, the "OXFORD AND CAMBRIDGE REVIEW" will admit from time to time the criticism of observers who are not members of either University on matters which concern the relation of Oxford and Cambridge with the outer world.

In brief, the "OXFORD AND CAMBRIDGE REVIEW" makes its appeal to the *esprit de corps* of past and present members of the Universities, and invites them to keep in touch with the Academic problems and difficulties of the moment. At the same time, as an organ representative of much that is best and most vigorous in modern thought, it will provide authoritative criticisms in all departments of public activity.

 A Specimen Copy will be sent on application. Also

## "THE CHRISTIAN WORLD PULPIT."

[ESTABLISHED 1871.]

Every Wednesday, 1d. Monthly, 6d.

**THE CHRISTIAN WORLD PULPIT** has now been in existence well over 35 years. Its steadily increasing circulation in the Church of England and amongst all the Nonconformist denominations points to the conclusion that there is a healthy and growing appetite for sermon-reading.

The Editor's endeavour has always been to give the best possible representation of the outstanding preachers of all denominations without favour and without prejudice. **THE CHRISTIAN WORLD PULPIT** is regarded as being "indispensable" by many people.

To those unable by duties or sickness to hear the preachers deliver their sermons this weekly publication should prove a real and lasting blessing.

The American pulpit is represented by its best-known men, such as Drs. LYMAN ABBOTT, CUYLER, LORIMER, AMORY BRADFORD, MACFARLAND, and REUBEN THOMAS.

**THE CHRISTIAN WORLD PULPIT** can be had of any newsagents in the United Kingdom. If by post, direct from the Office, the terms are—

Per Quarter, 1s. 8d.; per Half-Year, 3s. 3d.; per Year, 6s. 6d.

## MUTUAL ASSURANCE WITH MODERATE PREMIUMS.

THE PREMIUMS are so moderate that, at usual ages for Assurance, **£1200** or thereby may be secured from the first for the Yearly payment which in most Offices would assure (with Profits) **£1000** only—equivalent to an immediate and certain bonus of **20** per cent.

The **whole surplus** goes to the Policy-holders on a system at once safe and equitable—no share going to those by whose early death there is a *loss* to the Common Fund.

**THE SURPLUS** at the latest Investigation was **£1,581,000.**

Over **60 per cent.** of the Members who died during the last Septennium were entitled to **Bonuses**, which, notwithstanding that the Premiums do not as a rule exceed the non-Profit rates of other Offices, were, on the average, equal to an addition of over **50 per cent.** to the Original Assurances.

## OBSERVATIONS.

The Divinity, Law, and Physic Schools are open during the whole of every Term, and the keeping of all Acts is entirely at the discretion of the respective Professors.

All Festivals, Saints' Days, and Sundays, are surplice-days, and the evenings preceding are surplice-evenings.

On Litany days the Doctors and Noblemen wear their robes, and the Proctors their congregation-ruffs.

The Scarlet Days are Christmas Day, Easter Day, Ascension Day, Whitsunday, Trinity Sunday, All Saints' Day, the First Sunday in November (the day for the Commemoration of Benefactors), Commencement Tuesday (the Tuesday next preceding June 24), and any other days for which the Vice-Chancellor gives notice.

# UNIVERSITY OF CAMBRIDGE.

HINC LUCEM ET POCULA SACRA.

---

DEUM TIMETO: REGEM HONORATO: VIRTUTEM COLITO:  
DISCIPLINIS BONIS OPERAM DATO.

*Statutes of the University.*

---

THE UNIVERSITY OF CAMBRIDGE is an incorporation of students in all and every of the liberal arts and sciences, incorporated 13th Eliz. c. 29) by the name of "*The Chancellor, Masters, and Scholars of the University of Cambridge.*" In this commonwealth are seventeen Colleges, and one Public Hostel, founded for the study of learning and knowledge, and for the better service of Church and State. All these societies have been founded since the beginning of the reign of King Edward I.<sup>1</sup> and are maintained by the endowments of their several founders and benefactors. Each (the Public Hostel included) is a body corporate, bound by its own statutes; but is likewise controlled by the paramount laws of the University. A New Code of Statutes for the University was approved by Queen Victoria in Council in 1882.

The several societies in this literary republic furnish members both for the executive and for the legislative branch of its government. There are also members of the University who are not members of these societies. The legislative body of the University is called the Senate, and the place in which it assembles is called the Senate-House.

The Chancellor, Vice Chancellor, Doctors of Divinity, Law, Medicine, Science, Letters, and Music, Bachelors of Divinity<sup>2</sup>,

<sup>1</sup> The first authentic charter is said to be dated 15 Henry III. and is to be found among the records in the Tower.

<sup>2</sup> Those Bachelors of Divinity who are Members of the Senate deduce their privilege from having previously taken the degree of Master in another faculty.

and Masters of Arts, Law, Surgery and Music, having their names upon the University Register, have votes in this assembly. Those whose names are removed from the Register lose the right of voting, but may recover it by replacing their names on the Register and paying all University dues from the time of removal of their names, 180 days being first allowed to elapse after the replacing of the names.

The Council of the Senate was established by the Act 19 and 20 Viet. cap. 88. Nothing can be offered to the Senate for confirmation without the sanction of the Council. The term *Grace* is used of a proposal offered to the Senate or confirmed by it.

The COUNCIL consists of the Chancellor, the Vice-Chancellor, four heads of Colleges, four Professors of the University, and eight other Members of the Senate chosen from the Electoral Roll published by the Vice-Chancellor. Two of the heads of Colleges, two of the Professors, and four other Members of the Senate are elected on the seventh of November in every other year by the Persons whose names are on the Electoral Roll, and they all hold office for four years.

The Electoral Roll is published in October each year, and is thenceforth the Electoral Roll for the year thence next ensuing. It consists of Members of the Senate who have resided within the precincts of the University for fourteen weeks at the least between the first day of the said October and the first day of the preceding October, together with all Officers of the University being Members of the Senate, the Heads of Houses, the Professors and the Public Examiners.

Before the beginning of each Term the Vice-Chancellor publishes a list of the several days of that Term on which a Congregation or assembly of the Senate will be held for transacting University business; these fixed days occur about once a fortnight; but, in case of emergency, the Vice-Chancellor summons a special Congregation. There can be no Congregation without the presence of the Chancellor or the Vice-Chancellor or his deputy, the two Proctors, and the Registrar, or their deputies. Except supplicats for degrees, no Grace can be offered to the Senate without three days' previous notice, unless at least *twenty* Members of the Senate are present. Graces remain in force till they are rescinded; but no Grace is valid which is inconsistent with the Statutes.

The executive branch of the University is committed to the following officers:—

A CHANCELLOR, who is at the head of the University to govern it according to the Statutes. He adjudicates in all causes between members of the University except in matters of mayhem and felony.

A HIGH STEWARD, who has special power to take the trial of scholars impeached of felony within the limits of the University,

nd to hold and keep a lect according to the established charter and custom. He appoints a Deputy by letters patent, the appointment being subject to the approval of the Senate.

A VICE-CHANCELLOR, who in the absence of the Chancellor, r, with his consent, in his presence, or in the vacancy of the office, acts with the full powers of the Chancellor. The office is annual.

A COMMISSARY, who holds a court of record for all privileged persons, and scholars under the degree of M.A. He is appointed by the Chancellor by letters patent.

The SEX VIRI, elected by Grace of the Senate, to hold office for two years; who, with the Chancellor, constitute a Court to hear all accusations against members of the University, who are not *in statu pupillari*, for offences against the Statutes or Ordinances of the University. The Court has the power of punishing offenders by deprivation or suspension of degree, or any lighter sentence; but there is liberty of appeal to the Senate from its decision. The Court of Discipline for persons *in statu pupillari* consists of the Chancellor and six Heads of Colleges appointed by Grace.

A PUBLIC ORATOR, who is the voice of the Senate upon all public occasions. He writes letters in the name of the University, whenever the Chancellor or Council of the Senate think fit, and presents to all honorary degrees with an appropriate speech.

A LIBRARIAN, who has charge of the University Library.

A REGISTRARY, who attends all Congregations and all public proceedings of the Chancellor or of the University, records proceedings, and has charge of all writings and documents delivered to him by the Chancellor.

AN ASSISTANT REGISTRARY, who must be a member of the Senate, and who is under the general direction of the Registrary, and is appointed by him with the consent of the Vice-Chancellor.

TWO PROCTORS, who are peace-officers, elected annually. It is their duty to attend to the behaviour of all persons *in statu pupillari*, and to maintain public morals. Another part of their duty is to be present at all Congregations of the Senate, to read the Graces, to take the assent or dissent, and to pronounce the same.

TWO PRO-PROCTORS, who assist the Proctors in that part of their duty which relates to discipline and the behaviour of persons *in statu pupillari*, and the preservation of public morals; they also attend all Congregations.

TWO ADDITIONAL PRO-PROCTORS, who assist the Proctors in like manner as the other Pro-Proctors. They attend Congregations when requested by the Vice-Chancellor.

TWO ESQUIRE BEDELLS, who attend the Chancellor (or, in his absence, the Vice-Chancellor), whom they precede with their

silver maces upon all public occasions and solemnities; they receive from him the Graces at Congregations, and deliver them to the Proctors; they summon members of the Senate to the Chancellor's Court; they see to the maintenance of the University ceremonies and the forms of conducting public business.

The **UNIVERSITY MARSHAL** is appointed by the Vice-Chancellor.

The **TWO MEMBERS**, whom the University sends to the Imperial Parliament of the United Kingdom of Great Britain and Ireland, are chosen by the Members of the Senate.

The **UNIVERSITY COUNSEL** are appointed by Grace of the Senate, and are consulted upon various occasions.

The **SOLICITOR** is appointed by the Vice-Chancellor.

**SYNDICS** are the members of special committees of members of the Senate, appointed by Grace from time to time for specific duties.

There are **SPECIAL BOARDS OF STUDIES** for departments of study, consisting of Professors, and of persons appointed from time to time by Grace; and there is a **GENERAL BOARD OF STUDIES**, consisting of the Vice-Chancellor, one member of each Special Board elected by that Special Board, and eight members of the Senate elected by Grace.

The **ANNUAL INCOME** of the University arises from various sources, amongst which are

The Rectory of Burwell and a farm at Barton:

The produce of fees at matriculation, at certain examinations, and for degrees, and other irregular sources of income not easily enumerated, the gross amount of which is very variable:

The trading profits of the **UNIVERSITY PRESS**:

A Tax paid quarterly by every member of the University:

Contributions from Colleges, as provided by the Statutes.

For the care and management of the property and income of the University there is a **FINANCIAL BOARD**, consisting of the Vice-Chancellor, two members of the General Board of Studies elected by that Board, four members of the Senate elected by the Colleges in common, and four members of the Senate elected by Grace on the nomination of the Council of the Senate.

The University Accounts are examined annually by Auditors appointed by the Senate, and a Summary of these Accounts is published to the University.

The officers and servants of the University are paid mostly by fixed salaries from the University Chest.

By Statute the **TERMS** of this University are three, and include 227 days at least. Michaelmas Term begins on October 1. Lent Term ends not later than the Thursday next before Easter Day. Easter Term begins not earlier than the Tuesday next after Easter Day, and ends on June 24.

By Grace of October 12, 1882, Michaelmas Term ends on December 19, and Lent Term begins on January 8; and 1

## MATRICULATION.

Matriculation, or enrolment of the Students' names in the University books, takes place on the day following (or, if that day be Sunday, the day next but one following) the last day of the first quarter of each Term. Students matriculated on any other day than a day of general matriculation pay extra fees<sup>1</sup>.

No Student can count any Term before that in which he has matriculated unless he has satisfied the Council of the Senate that his matriculation has been deferred for sufficient cause.

Every Student, before he can be admitted to a degree, must have completed nine terms' residence during three-fourths of each term as a member of a College, or of a Public Hostel, or as a Non-Collegiate Student.

## RESIDENCE.

(See also p. 197.)

I. *Precincts of the University.* The boundaries in and about Cambridge within which terms shall be kept by residence shall be defined as extending two miles and a half from Great St Mary's Church, measured in a direct line, and shall be called the Precincts of the University.

II. *Residence of Persons in statu pupillari.* A person *in statu pupillari* keeping terms by residence must reside within the precincts of the University

<sup>1</sup> See p. 195

## 6 RESIDENCE OF PROFESSORS AND READERS.

Residence shall be reckoned by days. No person *in statu pupillari* shall be considered to have resided during any day unless he shall have resided during some part of such day and of the following night and shall have complied with such other conditions of residence, if any, as may be required by the authorities of his College or Hostel or by the Non-Collegiate Students Board; provided that a part of the day on which such a person completes his residence for the term may be counted as a day of residence.

Provided also that the authorities of the Colleges and Hostels, and of the Non-Collegiate Students Board, shall be empowered to continue their existing practice in the case of such students as have already commenced residence and would be prejudiced by the change.

For the purpose of this regulation the day shall be held to extend from 6 A.M. to midnight.

Residence shall be certified to the University under the hand and seal of the Head of the College or Hostel to which the Student belongs, or of the Chairman of the Non-Collegiate Students Board.

### RESIDENCE OF PROFESSORS AND READERS.

1. All Professors and Readers who are governed by Statute B shall, except as hereinafter provided, be required to reside during that portion of each term (or in the case of the Regius Professor of Hebrew and the Ely Professor of Divinity during that portion of each of two terms) in each year which is hereinafter described as full term.

2. Full term shall consist of three fourths of the whole term, reckoned from the first day of full term as hereinafter defined.

The first day of full term shall be:—

3. The General Board of Studies may grant to any Professor or Reader leave to substitute for the residence required of him, in any one term or any part of it, residence for an equal time between July 1 and August 31, provided that the General Board of Studies are of opinion that such leave may be granted without prejudice to the interests of the University.

They may also grant occasional leave of absence for a period not exceeding one term on account of illness or other sufficient special cause on such conditions, if any, as they may think fit. Leave of absence may not be extended, except by Grace of the Senate on the recommendation of the General Board of Studies.

4. A Professor, or Reader, shall be regarded as resident in the University when either

5. It shall be the duty of each Professor and Reader to notify to the Chairman of the General Board of Studies before the beginning of each full term,

- (1) If he keeps his residence under clause (A) of Regulation 4, the weeks (if any) during the preceding full term in which he has been absent from home more than two nights;
- (2) If he keeps his residence under clause (B) of Regulation 4,
  - (a) the weeks (if any) during the preceding full term in which he has not spent in Cambridge at least two hours between 8 a.m. and 6 p.m. in each of five days in the week and at least fifteen hours in the week;
  - (b) his arrangements for accessibility during the preceding term.

For the purposes of these returns each week shall be considered to begin on Sunday, and the portions of full term before the first Sunday in full term and after the last Saturday in full term shall each be reckoned as a week.

6. If in any case the General Board of Studies shall be of opinion that the absences so notified have been excessive and without sufficient cause or that the prescribed conditions of residence have otherwise not been adequately fulfilled, they shall signify the same to the Professor or Reader, and in case the Professor or Reader shall continue to be in the opinion of the Board negligent as to his residence it shall be their duty to report the facts to the Vice-Chancellor and *Sex Viri*.

## GENERAL REGULATIONS FOR THE PUBLICATION OF LISTS OF SUCCESSFUL CANDIDATES APPLICABLE TO ALL EXAMINATIONS.

1. All lists of successful Candidates in Examinations shall be published by the Registry causing a printed copy of each List to be affixed to the Senate-House door at 10 A.M., except in the case of those Tripos Examinations in which the Lists of successful Candidates are read in the Senate-House. In the latter case the Lists shall be read at 9 A.M. on the day named in the Regulations, and shall be affixed to the Senate-House door by the Registry or his agent immediately after the reading of the Lists.

2. The Senior Examiner, under which title is to be understood (1) in the case of Part I, Part II, and each of the Additional Subjects of the Previous Examination, the General Examination, and each of the Special Examinations except the Special Examination in Music, the Senior Resident Examiner, (2) in the case of a Tripos Examination the Chairman of the Examiners, (3) in the case of the Examination of graduates proceeding to the Degree of Bachelor or Master of Law, the Chairman of the Examiners for the Law Tripos, (4) in the case of each part of the First Examination, the Second Examination, and the First Part of the Third Examination for the M.B. Degree, the Regius Professor of Physic, (5) in the case of the Special Examination in Music, and of each part of the Examination for the Mus.B., Mus.M. and Mus.D. Degrees, the Professor of Music, (6) in the case of the Examination in spoken French and German, the Chairman of the Examiners shall send as soon as possible to the Registry in a sealed envelope the list of successful Candidates signed by all the Examiners. A list signed by all the Examiners shall at the same time be sent in a sealed envelope by the Senior Examiner to the Vice-Chancellor and shall be considered as the authoritative list to be preserved in the Registry. These lists shall be sent in a printed form if this can conveniently be done. As soon as these lists shall have been sent by the Senior Examiner to the Registry and the Vice-Chancellor respectively, the duty of the Senior Examiner, so far as regards the Publication of the List, shall cease, except in the case of those Tripos Examinations in which the List is read in the Senate-House. In such cases the Senior Examiner, or one of the Examiners deputed by him, shall read the List.

In the case of each of the three sections of the Second Part of the Third Examination for the M.B. Degree, a list shall be drawn up containing the names of the Candidates who have satisfied the Examiners in that section, and shall be signed by all the Examiners in that section. The three lists shall be sent in a sealed envelope by the Regius Professor of Physic to the Vice-Chancellor, and shall be considered as authoritative records to be preserved in the Registry. A copy of each list so signed shall at the same time be sent in a sealed envelope by the Regius Professor to the Registry. The Registry shall after receiving these lists draw up a list of the Candidates who at that Examination or at that and previous Examinations have satisfied the Examiners in all three sections; and this list signed by the Regius Professor of Physic and by the Registry shall be published as the list of successful Candidates in the manner specified in these Regulations.

3. The Registry shall cause directions to be given to the University Press for printing and circulating the copies in the manner specified in Regulation 4; and on the morning of the day when the List is to be published it shall either be affixed to the Senate-House door at 10 A.M., or be

conveyed before 9 A.M. by the Registry or his agent to the Senior Examiner or the person appointed to read it.

4. Simultaneously with the Publication of Lists, printed copies enclosed in envelopes shall be sent from the University Press to Heads, Tutors and Praelectors of Colleges and Public Hostels, the Principals of Private Hostels, the Censor of Non-Collegiate Students, and the persons appointed to affix such lists on the College screens.

5. In the case of Examinations respecting which no day is fixed by Ordinance for the Publication of the List, or respecting which it may not be desirable to have the publication delayed to the latest day fixed by Ordinance, the Senior Examiner shall communicate to the Registry as soon as practicable a statement of the day on which he may expect to receive the List; and the Registry shall cause to be affixed to the Senate-House door, or shall insert in the *Reporter*, a notice of the expected date of publication.

6. In any case in which the Examiners represent to the Vice-Chancellor that a correction or addition is required in a List already published in accordance with the foregoing Regulations, the Vice-Chancellor shall have power to authorise the issue of an amended List embodying the correction or addition; this amended List shall be signed, published, and circulated in the same manner as the original List, and shall take the place thereof for all purposes.

## REGULATIONS FOR THE PREVIOUS EXAMINATION.

*(For conditions of Exemption from the Previous Examination  
see pp. 29—33 and 171—176.)*

1. The Previous Examination shall be held four times in each year.
  - 1 a. The First Examination shall begin on the first Monday, Wednesday, or Saturday whichever may first happen after the last day of full Lent Term.
2. The second examination shall begin on the Saturday next before the third Sunday in June.
3. The third shall begin on either the first Monday in October, or the first Wednesday, or the first Saturday, whichever shall first happen.
4. The fourth shall begin on the Monday next before the last day of full Michaelmas term when that last day falls on a Friday; and on the Wednesday next before the last day of full Michaelmas term when that last day falls on a Monday.
5. The examination shall be conducted entirely by printed papers.
6. The Previous Examination shall consist of two parts.
7. In Part I. four papers shall be set, viz. :
  - (1) a paper on one of the Gospels in the original Greek containing (a) questions on the subject-matter, (b) short passages for translation and explanation;
  - (2) a paper on one of the Latin classics containing (a) passages for translation with grammatical questions arising from or suggested by these passages, (b) questions on the subject-matter;

  - (4) a paper containing two or more easy unprepared passages of Latin to be translated into English, the use of a dictionary being allowed.

Provided that in the case of those students who may desire it, there shall be substituted for the paper in one of the Gospels in the original Greek an additional paper on one of the Greek or Latin Classics.

Provided further that in the case of those students who, being natives of Asia or of Egypt and not of European parentage, may desire it, instead of the paper marked 1 there shall be substituted a paper on the same Gospel in the Authorised English Version, or on a modern English prose work of a historical character, with questions on the subject-matter; and instead of the paper marked 3 a paper on a play of Shakespeare or some other Classic English play or poem of similar length, with grammatical and other questions arising thereupon.

Provided further that, in the case of those students who, being natives of Asia or Africa and not of European parentage, may desire it, instead of the paper marked (1) there shall be substituted a paper on the same Gospel in the Authorised English Version, or on a modern English prose work of a historical character, with questions on the subject-matter; and instead of the papers marked (2), (3), and (4), there shall be substituted:

(a) two papers in Arabic, Chinese, or Sanskrit.

The papers in these languages shall be set when required in the Previous Examination which takes place at the end of the Michaelmas Term, and—in the case of each of the languages—one of the two papers shall contain (a) passages for translation into English from set books, or portions of books with grammatical or other questions immediately arising thereupon, (b) questions on the subject-matter; and the other shall contain two or more easy unprepared passages of the language to be translated into English.

(β) a paper on a play of Shakespeare, or some other classic English play or poem of similar length, with grammatical and other questions arising thereupon.

No student shall be allowed to offer himself as a candidate for the examination in Arabic, Chinese, or Sanskrit after the end of his third term of residence; and no candidate can claim to be examined in Arabic, Chinese, or Sanskrit unless notice has been given to the Registry before the twenty-first of October next preceeding the examination.

Students who have not passed in Greek in the Previous Examination are not allowed to take up Persian alone in the Oriental Languages Tripos; and students who have passed in Arabic, Chinese, or Sanskrit, instead of Greek or Latin, are not allowed to offer themselves as candidates for the Oriental Languages Tripos.

Provided further that in the case of those students who may desire it, instead of the paper marked (2) there shall be substituted a paper containing two or more unprepared passages of Latin of ordinary difficulty, not contained in the set book, to be translated into English without the use of a dictionary, together with grammatical questions arising thereupon; and further that in the case of those students who may desire it, instead of the paper marked (3) a paper containing two or more unprepared passages of Greek of ordinary difficulty, not contained in the set book, to be translated into English without the use of a dictionary, together with grammatical questions arising thereupon.

8. The appointment of the particular Gospel and, in regard to the Latin and Greek classics, including that which may be substituted for the Gospel, the appointment both of the authors and of the portions of their works, which it may be expedient to select, shall rest with the Special Board for Classics upon the understanding that the Board shall so limit the subjects of the Examination that the persons who are to be examined may be reasonably expected to shew a competent knowledge of all the subjects. In regard to the English subjects, the like appointment shall also rest with the Special Board for Classics.

The authors and the portions of their works prescribed for the examinations in Arabic, Chinese, and Sanskrit in any year shall be selected by the Special Board for Oriental Studies.

9. Notice of the subjects of Examination for each civil year shall be issued before the middle of the Lent term of the civil year immediately preceding, the subjects of the four examinations in each civil year being the same.

10. In Part II. five papers shall be set, viz. :

(1) a paper on Paley's Evidences ;

(2) Geometry.

The paper in Geometry shall contain questions on Practical and on Theoretical Geometry. Every Candidate shall be expected to answer questions in both branches of the subject.

The questions on Practical Geometry shall be set on the constructions contained in the annexed Schedule A, together with easy extensions of them. In cases where the validity of a construction is not obvious, the reasoning by which it is justified may be required. Every Candidate shall provide himself with a ruler graduated in inches and tenths of an inch, and in centimetres and millimetres, a set square, a protractor, compasses, and a hard pencil. All figures should be drawn accurately. Questions may be set in which the use of the set square or of the protractor is forbidden.

The questions on Theoretical Geometry shall consist of theorems contained in the annexed Schedule B, together with questions upon these theorems, easy deductions from them, and arithmetical illustrations. Any proof of a Proposition shall be accepted which appears to the Examiners to form part of a systematic treatment of the subject ; the order in which the theorems are stated in Schedule B is not imposed as the sequence of their treatment.

In the proof of theorems and deductions from them, the use of hypothetical constructions shall be permitted. Proofs which are only applicable to commensurable magnitudes shall be accepted.

#### SCHEDULE A.

Bisection of angles and of straight lines.

Construction of perpendiculars to straight lines.

Construction of an angle equal to a given angle.

Construction of parallels to a given straight line.

Simple cases of the construction from sufficient data of triangles and quadrilaterals.

Division of straight lines into a given number of equal parts or into parts in any given proportions.

Construction of a triangle equal in area to a given polygon.

Construction of tangents to a circle and of common tangents to two circles.

Simple cases of the construction of circles from sufficient data.

Construction of a fourth proportional to three given straight lines and a mean proportional to two given straight lines.

Construction of regular figures of 3, 4, 6 or 8 sides in or about a given circle.

Construction of a square equal in area to a given polygon.

## SCHEDULE B.

*Angles at a Point.*

If a straight line stands on another straight line, the sum of the two angles so formed is equal to two right angles; and the converse.

If two straight lines intersect, the vertically opposite angles are equal.

*Parallel Straight Lines.*

When a straight line cuts two other straight lines, if

- (i) a pair of alternate angles are equal,
  - or (ii) a pair of corresponding angles are equal,
  - or (iii) a pair of interior angles on the same side of the cutting line are together equal to two right angles,
- then the two straight lines are parallel; and the converse.

Straight lines which are parallel to the same straight line are parallel to one another.

*Triangles and Rectilinear Figures.*

The sum of the angles of a triangle is equal to two right angles.

If the sides of a convex polygon are produced in order, the sum of the angles so formed is equal to four right angles.

If two triangles have two sides of the one equal to two sides of the other, each to each, and also the angles contained by those sides equal, the triangles are congruent.

If two triangles have two angles of the one equal to two angles of the other, each to each, and also one side of the one equal to the corresponding side of the other, the triangles are congruent.

If two sides of a triangle are equal, the angles opposite to these sides are equal; and the converse.

If two triangles have the three sides of the one equal to the three sides of the other, each to each, the triangles are congruent.

If two right-angled triangles have their hypotenuses equal, and one side of the one equal to one side of the other, the triangles are congruent.

If two sides of a triangle are unequal, the greater side has the greater angle opposite to it; and the converse.

Of all the straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

The opposite sides and angles of a parallelogram are equal, each diagonal bisects the parallelogram, and the diagonals bisect one another.

If there are three or more parallel straight lines, and the intercepts made by them on any straight line that cuts them are equal, then the corresponding intercepts on any other straight line that cuts them are also equal.

*Areas.*

Parallelograms on the same or equal bases and of the same altitude are equal in area.

Triangles on the same or equal bases and of the same altitude are equal in area.

Equal triangles on the same or equal bases are of the same altitude.

Illustrations and explanations of the geometrical theorems corresponding to the following algebraical identities :

$$\begin{aligned}k(a+b+c\dots) &= ka+kb+kc+\dots, \\(a+b)^2 &= a^2+2ab+b^2, \\(a-b)^2 &= a^2-2ab+b^2, \\a^2-b^2 &= (a+b)(a-b).\end{aligned}$$

The square on a side of a triangle is greater than, equal to, or less than the sum of the squares on the other two sides, according as the angle contained by those sides is obtuse, right, or acute. The difference in the cases of inequality is twice the rectangle contained by one of the two sides and the projection on it of the other.

### *Loci.*

The locus of a point which is equidistant from two fixed points is the perpendicular bisector of the straight line joining the two fixed points.

The locus of a point which is equidistant from two intersecting straight lines consists of the pair of straight lines which bisect the angles between the two given lines.

### *The Circle.*

A straight line, drawn from the centre of a circle to bisect a chord which is not a diameter, is at right angles to the chord ; conversely, the perpendicular to a chord from the centre bisects the chord.

There is one circle, and one only, which passes through three given points not in a straight line.

In equal circles (or, in the same circle) (i) if two arcs subtend equal angles at the centres, they are equal ; (ii) conversely, if two arcs are equal, they subtend equal angles at the centres.

In equal circles (or, in the same circle) (i) if two chords are equal, they cut off equal arcs ; (ii) conversely, if two arcs are equal, the chords of the arcs are equal.

Equal chords of a circle are equidistant from the centre ; and the converse.

The tangent at any point of a circle and the radius through the point are perpendicular to one another.

If two circles touch, the point of contact lies on the straight line through the centres.

The angle which an arc of a circle subtends at the centre is double that which it subtends at any point on the remaining part of the circumference.

Angles in the same segment of a circle are equal ; and, if the line joining two points subtends equal angles at two other points on the same side of it, the four points lie on a circle.

The angle in a semicircle is a right angle ; the angle in a segment greater than a semicircle is less than a right angle ; and the angle in a segment less than a semicircle is greater than a right angle.

The opposite angles of any quadrilateral inscribed in a circle are supplementary ; and the converse.

If a straight line touch a circle, and from the point of contact a chord be drawn, the angles which this chord makes with the tangent are equal to the angles in the alternate segments.

If two chords of a circle intersect either inside or outside the circle the rectangle contained by the parts of the one is equal to the rectangle contained by the parts of the other.

*Proportion: Similar Triangles.*

If a straight line is drawn parallel to one side of a triangle, the other two sides are divided proportionally; and the converse.

If two triangles are equiangular their corresponding sides are proportional; and the converse.

If two triangles have one angle of the one equal to one angle of the other and the sides about these equal angles proportional, the triangles are similar.

The internal bisector of an angle of a triangle divides the opposite side internally in the ratio of the sides containing the angle, and likewise the external bisector externally.

The ratio of the areas of similar triangles is equal to the ratio of the squares on corresponding sides.

(3) Arithmetic.

A knowledge of recurring decimals and of the process of extracting cube root shall not be required.

The use of algebraical symbols and processes shall be permitted.

(4) Elementary Algebra, viz. addition, subtraction, multiplication and division; simple equations; fractions; highest common factor, lowest common multiple; quadratic equations; solutions of two simultaneous equations, one at least being linear; simple graphs; problems requiring the classes of equations specified; simple questions on fractional indices; the nature and simple properties of logarithms to the base 10, with easy applications of four-figure tables; ratio and proportion; arithmetic progression, finite geometric progressions.

(5) a paper containing subjects for an English Essay selected from a standard English work or works.

Provided that instead of the paper in Paley's Evidences there shall be substituted in the case of those students who desire it a paper in elementary logic.

11. It shall be the duty of the Special Board for Moral Science to define from time to time by a schedule or otherwise the nature and extent of the examination in elementary logic.

11\*. The appointment of the standard English work or works from which the subjects for the English Essay are to be selected shall rest with the Special Board for Classics.

12. Each of the examinations shall be open to all matriculated students in their first or any later term of residence; also to any person who is not yet a Matriculated Student, provided that a Certificate be received by the Registry from the Tutor of a College or a Public Hostel or from the proper Officer of the Non-Collegiate Students Board, stating that the candidate has been admitted, or is in his opinion a *bona fide* applicant for admission, to his College or Public Hostel or as a Non-Collegiate Student as the case may be.

For a candidate who has not yet paid the matriculation fee, the matriculation fee—as well as the examination fees—shall be paid to the Registry.

13. Students shall not be obliged to pass in both parts of the Previous Examination at the same time, but may offer themselves for examination either in both parts or in one part only.

14. No student shall be approved by the Examiners for either part of the Previous Examination unless he shall have satisfied the Examiners in each paper of such part, but students who have satisfied the examiners in Arabic, Chinese, or Sanskrit in the Previous Examination in any year may offer themselves for examination in the remaining papers of Part I. on any subsequent occasion.

15. Every student shall be required in writing his answers to conform to the rules of English grammar including orthography; and no student shall be approved by the Examiners who shall fail to satisfy them in this respect.

16. The names of the students approved shall be placed by the Examiners in two separate lists, one for each part of the Examination, each list containing four classes with the names in each class arranged alphabetically; and these lists shall be published in the Senate-House on some day to be appointed by the Board of Examinations.

17. In the Michaelmas Term of every year the Senate shall elect nine Examiners to conduct in the following year the Examinations above described; such Examiners to be members of the Senate, and to be nominated by the Board of Examinations. At the same time the Senate shall elect an Examiner in Logic, such Examiner to be a member of the Senate and to be nominated by the Special Board for Moral Science.

The Senate shall also elect before the division of the term in which the examinations in Arabic, Chinese, and Sanskrit are to be held, one or more examiners in each of these subjects for which any candidates may have entered, such examiners to be nominated by the Special Board for Oriental Studies.

Students who have not passed in Greek in the Previous Examination are not allowed to take up Persian alone in the Oriental Languages Tripos; and students who have passed in Arabic, Chinese, or Sanskrit, instead of Greek or Latin, are not allowed to offer themselves as candidates for the Oriental Languages Tripos.

8. The appointment of the particular Gospel and, in regard to the Latin and Greek classics, including that which may be substituted for the Gospel, the appointment both of the authors and of the portions of their works, which it may be expedient to select, shall rest with the Special Board for Classics upon the understanding that the Board shall so limit the subjects of the examination that the persons who are to be examined may be reasonably expected to shew a competent knowledge of all the subjects. In regard to the English subjects, the like appointment shall rest with the Special Board for Classics.

The authors and the portions of their works prescribed for the examinations in Arabic, Chinese, and Sanskrit in any year shall be selected by the Special Board for Oriental Classics.

9. Notice of the subjects of examination for each civil year shall be

issued before the middle of the Lent Term of the civil year immediately preceding, the subjects of the four examinations in each civil year being the same.

The paper in GEOMETRY shall contain questions on Practical and on Theoretical Geometry. Every candidate shall be expected to answer questions in both branches of the subject.

The questions on Practical Geometry shall be set on the constructions contained in the annexed Schedule A, together with easy extensions of them. Every candidate shall provide himself with a ruler graduated in inches and tenths of an inch, and in centimetres and millimetres, a set square, a protractor, compasses, and a hard pencil. All figures should be drawn accurately. Questions may be set in which the use of the set square or of the protractor is forbidden.

The questions on Theoretical Geometry shall consist of theorems contained in the annexed Schedule B, together with questions upon these theorems, easy deductions from them, and arithmetical illustrations. Any proof of a proposition shall be accepted which appears to the examiners to form part of a systematic treatment of the subject; the order in which the

theorems are stated in Schedule B is not imposed as the sequence of their treatment.

In the proof of theorems and deductions from them, the use of hypothetical constructions shall be permitted. Proofs which are only applicable to commensurable magnitudes shall be accepted.

### SCHEDULE A.

Bisection of angles and of straight lines.

Construction of perpendiculars to straight lines.

Construction of an angle equal to a given angle.

Construction of parallels to a given straight line.

Simple cases of the construction from sufficient data of triangles and quadrilaterals.

Division of straight lines into a given number of equal parts or into parts in any given proportions.

Construction of a triangle equal in area to a given polygon.

Construction of tangents to a circle and of common tangents to two circles.

Simple cases of the construction of circles from sufficient data.

Construction of a fourth proportional to three given straight lines and a mean proportional to two given straight lines.

Construction of regular figures of 3, 4, 6 or 8 sides in or about a given circle.

Construction of a square equal in area to a given polygon.

### SCHEDULE B.

#### *Angles at a Point.*

If a straight line stands on another straight line, the sum of the two angles so formed is equal to two right angles; and the converse.

If two straight lines intersect, the vertically opposite angles are equal.

#### *Parallel Straight Lines.*

When a straight line cuts two other straight lines, if

- (i) a pair of alternate angles are equal,
  - or (ii) a pair of corresponding angles are equal,
  - or (iii) a pair of interior angles on the same side of the cutting line are together equal to two right angles,
- then the two straight lines are parallel; and the converse.

Straight lines which are parallel to the same straight line are parallel to one another.

#### *Triangles and Rectilinear Figures.*

The sum of the angles of a triangle is equal to two right angles.

If the sides of a convex polygon are produced in order, the sum of the angles so formed is equal to four right angles.

If two triangles have two sides of the one equal to two sides of the other, each to each, and also the angles contained by those sides equal, the triangles are congruent.

If two triangles have two angles of the one equal to two angles of the other, each to each, and also one side of the one equal to the corresponding side of the other, the triangles are congruent.

If two sides of a triangle are equal, the angles opposite to these sides are equal; and the converse.

If two triangles have the three sides of the one equal to the three sides of the other, each to each, the triangles are congruent.

If two right-angled triangles have their hypotenuses equal, and one side of the one equal to one side of the other, the triangles are congruent.

If two sides of a triangle are unequal, the greater side has the greater angle opposite to it; and the converse.

Of all the straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

The opposite sides and angles of a parallelogram are equal, each diagonal bisects the parallelogram, and the diagonals bisect one another.

If there are three or more parallel straight lines, and the intercepts made by them on any straight line that cuts them are equal, then the corresponding intercepts on any other straight line that cuts them are also equal.

#### *Areas.*

Parallelograms on the same or equal bases and of the same altitude are equal in area.

Triangles on the same or equal bases and of the same altitude are equal in area.

Equal triangles on the same or equal bases are of the same altitude.

Illustrations and explanations of the geometrical theorems corresponding to the following algebraical identities:—

$$\begin{aligned} k(a+b+c+\dots) &= ka+kb+kc+\dots, \\ (a+b)^2 &= a^2+2ab+b^2, \\ (a-b)^2 &= a^2-2ab+b^2, \\ a^2-b^2 &= (a+b)(a-b). \end{aligned}$$

The square on a side of a triangle is greater than, equal to, or less than the sum of the squares on the other two sides, according as the angle contained by those sides is obtuse, right, or acute. The difference in the cases of inequality is twice the rectangle contained by one of the two sides and the projection on it of the other.

#### *Loci.*

The locus of a point which is equidistant from two fixed points is the perpendicular bisector of the straight line joining the two fixed points.

The locus of a point which is equidistant from two intersecting straight lines consists of the pair of straight lines which bisect the angles between the two given lines.

#### *The Circle.*

A straight line, drawn from the centre of a circle to bisect a chord which is not a diameter, is at right angles to the chord; conversely, the perpendicular to a chord from the centre bisects the chord.

There is one circle, and one only, which passes through three given points not in a straight line.

In equal circles (or, in the same circle) (i) if two arcs subtend equal angles at the centres, they are equal; (ii) conversely, if two arcs are equal, they subtend equal angles at the centres.

In equal circles (or, in the same circle) (i) if two chords are equal, they cut off equal arcs; (ii) conversely, if two arcs are equal, the chords of the arcs are equal.

Equal chords of a circle are equidistant from the centres; and the converse.

The tangent at any point of a circle and the radius through the point are perpendicular to one another.

If two circles touch, the point of contact lies on the straight line through the centres.

The angle which an arc of a circle subtends at the centre is double that which it subtends at any point on the remaining part of the circumference.

Angles in the same segment of a circle are equal; and, if the line joining two points subtends equal angles at two other points on the same side of it, the four points lie on a circle.

The angle in a semicircle is a right angle; the angle in a segment

greater than a semicircle is less than a right angle; and the angle in a segment less than a semicircle is greater than a right angle.

The opposite angles of any quadrilateral inscribed in a circle are supplementary; and the converse.

If a straight line touch a circle, and from the point of contact a chord be drawn, the angles which this chord makes with the tangent are equal to the angles in the alternate segments.

If two chords of a circle intersect either inside or outside the circle the rectangle contained by the parts of the one is equal to the rectangle contained by the parts of the other.

*Proportion: Similar Triangles.*

If a straight line is drawn parallel to one side of a triangle, the other two sides are divided proportionally; and the converse.

If two triangles are equiangular their corresponding sides are proportional; and the converse.

If two triangles have one angle of the one equal to one angle of the other and the sides about these equal angles proportional, the triangles are similar.

The internal bisector of an angle of a triangle divides the opposite side internally in the ratio of the sides containing the angle, and likewise the external bisector externally.

The ratio of the areas of similar triangles is equal to the ratio of the squares on corresponding sides.

In ARITHMETIC a knowledge of recurring decimals and of the process of extracting cube root shall not be required; the use of algebraical symbols and processes shall be permitted.

In ELEMENTARY ALGEBRA questions may be set on the following parts of the subject:—

Addition, subtraction, multiplication and division; simple equations; fractions; highest common factor, lowest common multiple; quadratic equations; solutions of two simultaneous equations, one at least being linear; simple graphs; problems requiring the classes of equations specified; simple questions on fractional indices; the nature and simple properties of logarithms to the base 10, with easy applications of four-figure tables; ratio and proportion; arithmetic progression, finite geometric progressions.

The appointment of the standard English work or works, from which the subjects for the ENGLISH ESSAY are to be selected, shall rest with the Special Board for Classics.

12. Each of the examinations shall be open to all matriculated students in their first or any later term of residence, also to any person who is not yet a matriculated student provided that a certificate be received by the Registry from the Tutor of a College or Public Hostel or from the proper officer of the Non-Collegiate Students' Board stating that the candidate has been admitted, or is in his opinion a *bona fide* applicant for admission, to his College or Public Hostel or as a Non-Collegiate student the case may be. For a candidate who has not yet paid the matriculation fee, the matriculation fee—as well as the examination fees—shall be paid to the Registry.

4. A large proportion of such riders as are set shall consist of simple examples illustrating numerically or otherwise the corresponding theory.

5. A student may be a Candidate for Honours in the Examination if at the time of such Examination he be in his second term at least, having previously kept one term; provided that six complete terms shall not have passed after the said first term, unless the Candidate shall have previously obtained honours in one of the Honours Examinations of the University, in which case he may be a Candidate for Honours, provided

that nine complete terms shall not have passed after the said first term. No student of a different standing shall be allowed to be a Candidate for Honours, unless he shall have obtained permission from the Council of the Senate. A student who fails to obtain Honours in the Examination may be a Candidate for Honours on a second occasion, provided he be then otherwise qualified.

6. In the answers to questions on the subjects of the Schedule Candidates shall not be restricted to the use of the methods indicated in the Schedule.

7. The Special Board for Mathematics shall have power to alter the detailed specifications contained under the several heads in the Schedule, due care being taken that sufficient notice be given to Members of the University of any proposed change.

8. On the tenth day after the end of the Examination the Examiners shall publish a list of the Candidates who obtain Honours in the Examination arranged in three classes, the names in each class being placed in alphabetical order. In order to obtain Honours in the Examination, a Candidate must satisfy the Examiners both in Pure Mathematics and in Applied Mathematics.

9. A student who obtains Honours in Part I at a date not later than his seventh term shall be excused the General Examination for the Ordinary B.A. degree. 10. A student who obtains Honours in Part I at a date later than his seventh term shall be entitled to admission to the degree of Bachelor of Arts provided that he shall have kept the requisite number of terms at the time when he applies for the degree. The Examiners shall be empowered to declare that a Candidate at a date later than his seventh term has so acquitted himself as to deserve the Ordinary B.A. degree, and such Candidate shall be entitled to that degree provided that he shall have kept the requisite number of terms at the time when he applies for the degree.

11. The Examination in each year shall be conducted by three Examiners appointed by Grace of the Senate, on the nomination of the Special Board for Mathematics, before the division of the previous Michaelmas Term. One of the Examiners nominated shall so far as possible be chosen from teachers of Experimental Physics or Engineering.

THE SPECIAL BOARDS FOR PHYSICS AND CHEMISTRY and for BIOLOGY AND GEOLOGY in joint meeting assembled issue the following notice with regard to the First Part of the Examination for the Natural Sciences Tripos.

In the papers set in Part I. of the examination the questions in all the subjects will be of a comparatively elementary character, and will be such as to test a knowledge of principles rather than of details. Specimens may be exhibited for description and determination.

In Physics the questions will be limited to the elementary and fundamental parts of the subject, and, in particular, special attention will be paid to the definition of physical quantities, the general principles of measurement, the configuration and motion of a material system, the laws of motion, the comparison of forces and of masses and the properties of bodies. In Sound, Light, Heat, Electricity and Magnetism, only the fundamental laws, their simpler applications, and the experiments which illustrate them, will be required.

In Chemistry the questions will relate to the leading principles and experimental laws of Chemistry, the properties of the commoner elements and their principal compounds, the outlines of Metallurgy, and simple qualitative and quantitative analysis.

In Mineralogy the questions will be confined to elementary Crystallography, the general properties of minerals and the special characters of those species only which are of common occurrence or of well-known mineralogical importance.

In Geology the questions will be limited to Physical Geography, the interpretation of the structure of the crust of the earth and the history of its formation, so far as to involve only the elementary parts of Palæontology and Petrography.

In Botany the questions will relate to the elementary parts of Vegetable Morphology, Histology, and Physiology; and to the principles of a natural system of classification as illustrated by the more important British Natural Orders. Candidates will be required to describe plants in technical language. Questions will not be set on Vegetable Palæontology or the Geographical Distribution of Plants.

In Zoology and Comparative Anatomy minor details will not be included in the questions relating to classification. Geographical dis-

tribution of animals is held to be a part of Zoology, and Comparative Anatomy includes the structure of extinct as well as of recent forms.

Human Anatomy will include the mechanism of the human body, the comparison of its parts with those of lower animals, its development, &c. ; but the questions will be of a simple and elementary character.

In Physiology the questions will be of a comparatively elementary character.

A practical examination will be held in each of the above subjects.

1. Every candidate for the Mechanical Sciences Tripos shall be required to have passed a qualifying Examination in elementary Mathematics and Mechanics; unless he shall have obtained Honours in one of the Honours Examinations of the University or shall have been admitted as an Advanced Student of the University.

2. A student may be a candidate in the qualifying Examination provided that at the time of his candidature three complete terms shall not have passed after his first term of residence. A student who fails to pass the Examination may be a candidate on any subsequent occasion provided he be then otherwise qualified.

3. The qualifying Examination shall consist of two papers, the subjects of Examination being those defined in Schedule 1, and candidates shall be required to satisfy the examiners in both papers.

4. The qualifying Examination shall be held twice a year on the first day of the Special Examination in Mechanism and Applied Science.

5. On the seventh day after the Examination the examiners shall publish a list of those of the candidates who have satisfied them that their knowledge of Mathematics and Mechanics justifies their becoming candid-

ates for Honours in the Mechanical Sciences Tripos. The list shall be arranged in alphabetical order.

6. There shall be two examiners for the qualifying Examination in Mathematics who shall be appointed annually by the Senate on the nomination of the Special Board for Mathematics. Each examiner shall receive a fee of fifteen pounds together with a fee of half-a-crown for each candidate, such remuneration to cover both Examinations. The examiners shall be appointed for the current Academical year at the fourth Congregation in the Michaelmas Term.

7. Every student shall be required on presenting himself as a candidate in the qualifying Examination to pay a fee of one pound to the common chest.

8. A student may be a candidate for Honours in the Examination for the Mechanical Sciences Tripos if at the time of such Examination he be in his fifth term at least, having previously kept four terms; provided that nine complete terms shall not have passed after the first of the said four terms unless the candidate shall have previously obtained Honours in one of the Honours Examinations of the University, in which case he may be a candidate provided that twelve complete terms shall not have passed after the first of the said four terms. No student of a different standing shall be allowed to be a candidate unless he shall have obtained the permission of the Council of the Senate.

9. No student may present himself for the Mechanical Sciences Tripos on more than one occasion.

(a) He is competent to perform simple laboratory tests and experiments, illustrative of the subjects of the schedule, and workshop operations; and to make and interpret drawings.

(b) That he can adjust and use surveying instruments, and plot the results of a simple survey.

For the purpose of satisfying themselves on these points the examiners may impose such oral and practical tests as they think fit; and may examine records of laboratory work and drawings made by the candidate during the year previous to the Examination and attested by satisfactory evidence.

13. The names of the candidates who are deserving of Honours shall be arranged in three Classes; the names of those in each class being

placed in alphabetical order. In deciding whether a candidate is deserving of Honours the examiners shall have regard only to the aggregate of the papers in Group A, and to the oral and practical tests.

14. In order that a candidate may be placed in the First Class it shall be sufficient, so far as his performance in Group B is concerned, that he acquit himself with credit in two of the papers of the group. For special excellence in any subject of Group B a mark of distinction specifying the subject shall be awarded.

15. A candidate for the Tripos who fails to obtain Honours shall not be declared to have acquitted himself so as to deserve the Ordinary Degree unless the examiners are satisfied that he could obtain a First Class in the second part of the Special Examination in Mechanism.

## ADMISSION TO THE DEGREE OF BACHELOR OF ARTS, BACHELOR OF LAW AND MASTER OF LAW.

No degree, except a degree *honoris causa*, is conferred out of Term.

The Saturday before the third Sunday in June is a day of general admission to the title of Bachelor Designate in Arts for students who have passed one of the Special Examinations for the Ordinary B.A. degree immediately preceding or, having commenced residence in the Easter or Michaelmas Term next but two preceding, have in place of a Special Examination for the Ordinary B.A. Degree passed Part I of the Examination for the Diploma in Agriculture or Part I of the Examination for the Degree of Bachelor of Music, and candidates for degrees other than B.A. and LL.B. are also admitted.

The Tuesday after the third Sunday in June is a day of general admission (at the second Congregation) for Students who, in one of the Tripos Examinations immediately preceding, have obtained Honours, or have been declared to have deserved Honours, or have been declared to have deserved an Ordinary degree or have otherwise become qualified to proceed to the degree of B.A. or LL.B., or have obtained honours in one of the Tripos Examinations held in the preceding year and have been duly certified as having subsequently pursued a course of study, in accordance with Regulation 2\* of the Regulations applicable to all the Honours Triposes (at the third Congregation) candidates who have satisfied the conditions of the preceding regulation are admitted to the degree of B.A. and LL.B., and candidates for degrees other than B.A. and LL.B. are also admitted.

The Thursday before the last day of Michaelmas Term is a day of general admission to the title of Bachelor Designate in Arts or Law for Students who (1) would have been entitled to proceed to the degree of B.A. or LL.B. on the second day of General Admission in the preceding Easter Term, if they had at that time completed the requisite number of terms; or who (2) commenced residence in the Lent Term next but two preceding, and have passed one of the Special Examinations immediately preceding the day of General Admission, or have in place of a Special Examination for the Ordinary B.A. Degree passed Part I of the Examination for the Diploma in Agriculture or Part I of the Examination for the Degree of Bachelor of Music; or (3) fulfilled the conditions prescribed by the Statutes and Ordinances for Advanced Students.

Other candidates may be admitted on this day to the degrees of B.A. or LL.B. on payment of a fee of £10. 10s.

Other candidates for other degrees may also be admitted on this day.

Students admitted on other days than days of general admission pay additional fees<sup>1</sup>.

On behalf of each Candidate for a degree must be presented to the Council of the Senate:

1. A Supplicat, in the form prescribed by the Senate, signed by the Head or Prælector of the College or the Principal of the Hostel to which the applicant belongs, or, in the case of a Non-Collegiate Student, by the Chairman of the Board for Non-Collegiate Students, or by the Censor, or by their respective Deputies, these Officers or their Deputies being members of the Senate in full possession of their privileges as such.
2. In all cases in which residence is required as a qualification for a degree, a Certificate of the residence kept, under the hand and seal of the Head of the College or the Principal of the Hostel to which the applicant belongs, or, in the case of a Non-Collegiate Student, of the Chairman of the Board for Non-Collegiate Students, or of their respective Deputies.

One of the Bedells carries the Supplicats to the Proctors; the Senior reads them, and, if all are approved, he says, *Omnes placent*. But, if any are disapproved of, he says, *A.B. &c. non placent, reliquæ placent*. The Supplicats are then delivered to the Registry.

Candidates for degrees must be presented by members of the Senate in full possession of their privileges as such.

The Vice-Chancellor takes the chair before the table, and a Bedell having desired the respective Fathers to be in readiness with their Sons precedes the Father of the Senior Wrangler and his Son to the Vice-Chancellor.

<sup>1</sup> For fees, see p. 195.

The Father, taking the Senior Wrangler by the right hand, presents him in these words:

*Dignissime Domine Domine Pro-Cancellarie, et tota Academia, præ-sento vobis hunc juvenem, quem scio tam moribus quam doctrinâ esse idoneum ad titulum assequendum baccalaurei in artibus designati; idque tibi fide meâ præsto totique Academiæ.*

The Senior Wrangler then kneels down before the Vice-Chancellor, who, taking his hands between his own, admits him in these words,

*Auctoritate mihi commissâ admitto te ad titulum baccalaurei in artibus designati, in nomine Patris et Filii et Spiritus Sancti.*

Candidates for degrees, belonging to different Colleges are presented by their respective Fathers in the following order; King's, Trinity, St John's, Peterhouse, Clare, Pembroke, Gonville and Caius, Trinity Hall, Corpus Christi, Queens', St Catharine's, Jesus, Christ's, Magdalene, Emmanuel, Sidney Sussex, Downing; then follow members of Public Hostels in the order of date of recognition of their Hostels, and then Non-Collegiates. Four or five Candidates are presented at once, the Father saying, *Præ-sento vobis hos juvenes quos, &c.*

As soon as they have been presented, they are directed by one of the Bedells to the south side of the Senate-House.

All the Candidates from the same College are admitted in alphabetical order immediately after presentation before those from the College next in order are presented. On the second day of General Admission in the Easter Term there are three Congregations at such hours as the Vice-Chancellor may appoint. At the first of these Congregations the supplicants of Candidates for degrees are presented to the Senate for approval. 3. If the Committee shall be of opinion that the work of reporting upon such contributions is such as to require remuneration, they may direct that a fee not exceeding five guineas shall be paid from the Chest to each referee.

### DOCTOR OF MEDICINE.

All persons proceeding to the degree of Doctor of Medicine are required to produce certificates of having been engaged in Medical Study during five years<sup>1</sup>.

The names and certificates of Candidates must be sent to the Regius Professor of Physic.

<sup>1</sup> Medical Study out of the University is in all cases understood to mean study at some well-known School of Medicine, which shall have been recognised by the Special Board for Medicine. It is the duty of the Board to define from time to time what shall be sufficient evidence of such Medical Study. For the time claimed as passed to Medical Study out of the University, evidence is required of attendance in one of the Medical Schools, or on the Practice in one of the Hospitals. For the list of recognised Schools of Medicine and Hospitals, see p. 147.

Masters of Arts, proceeding to the degree of Doctor of Medicine, are required to produce the same certificates of attendance on Lectures and of attendance on Hospital Practice, and to pass the same Examinations, as are required for the degree of Bachelor of Medicine.

For the Degree of M.D. one Act is kept. The manner of keeping it is like that for the Degree of M.B., with the following Additional Regulations:

That, previously to the Thesis being read, four topics relating severally to Physiology, Pathology, Practice of Medicine, and State Medicine, be submitted to the Candidate, on one of which, selected by himself, he be required to write a short *extempore* essay.

That the *vivâ voce* discussion and examination in the Act be somewhat extended in length, but restricted to the subjects of Pathology, Practice of Medicine, and State Medicine, and the subjects of the Thesis and the Essay.

That the Assessor<sup>1</sup> assist the Professor in choosing the four topics and in deciding on the merits of the Essay as well as in conducting the Act. The Professor and his Assessor may, if they think fit, obtain a report on the Thesis from some person specially skilled in the subject thereof, who shall be entitled to receive for his report a fee of two guineas from the University Chest.

In case the Assessor is prevented by illness or other reasonable cause from taking part in conducting the exercises for the degree of Doctor of Medicine it shall be competent for the Regius Professor of Physic to appoint a Doctor of Medicine who is a Member of the Senate to act instead of the Assessor, subject to the approval of the Vice-Chancellor.

That the Thesis be sent to the Regius Professor at least a fortnight before the time for keeping the Act, and, after the Act is kept, the Thesis and a copy of it remain in the custody of the Professor. If the Regius Professor and the Assessor shall consider the exercises to have been duly performed, they shall certify the Registry to that effect and the certificate shall be published in the *University Reporter*.

A candidate who, having pursued the studies and passed the Examinations prescribed for the degree of Doctor of Medicine, is unable on account of absence abroad to keep the Act and perform the exercises in person may apply to the Regius Professor of Physic for permission to present instead a Dissertation on some subject approved by the Regius Professor.

If the permission is granted, the candidate shall send his Dissertation to the Regius Professor, for submission to the Degree Committee of the Medical Board for Medicine. He may also send with his Dissertation any memoir or other work on a medical subject published by him which he may desire to submit.

The Regius Professor, and his Assessor or the deputy for the Assessor appointed in accordance with the Ordinances, shall present to the Degree Committee a report on the merits of the whole of the work submitted by the candidate.

If the Degree Committee, at a meeting at which not less than two-thirds of the members are present, shall after considering the report resolve "that the candidate be approved for the degree of Doctor of Medicine," the Chairman shall draw up and sign a statement to that effect, indicating therein the subject of the Dissertation, and of any other part of the work submitted which the Committee shall judge to be deserving of mention.

The statement shall be forwarded by the Chairman to the Registry, and shall be published in the *University Reporter*.

<sup>1</sup> A Doctor of Medicine is annually appointed as Assessor to the Regius Professor.

A candidate so approved shall be deemed to have duly performed the exercises as required by the Ordinances.

The Assessor shall receive from the University Chest for each candidate so approved the same fee as is paid in respect of an Act kept in the ordinary manner.

That, in addition to the notices of Acts for the M.D. degree, hitherto distributed by the Marshal, notices of the same be posted at the New Museums, the Anatomical and Chemical Schools, and Addenbrooke's Hospital, and be sent to the Assessor of the Regius Professor, and to each member of the Special Board for Medicine.

## REGULATIONS FOR COURSES OF ADVANCED STUDY AND RESEARCH.

### A. ADMISSION OF ADVANCED STUDENTS.

1. Applications for admission as Advanced Students shall be made to the Registry.

No person shall be admitted as an Advanced Student who has not attained the age of twenty-one years.

2. Each application shall be accompanied by

- i. a diploma or other certificate of graduation at a University;
- ii. a statement as to the course or courses of (a) advanced study or (b) research which the applicant desires to pursue, together with such evidence of qualification, attainments, and previous study as he may be able to submit;
- iii. a certificate or declaration that the applicant has attained the age of twenty-one years.

3. In exceptional cases persons who do not present a diploma or certificate of graduation may be admitted as Advanced Students, provided they give such evidence of special qualification as may be approved by the Degree Committee of the Special Board of Studies with which the proposed course of advanced study or research is most nearly connected.

4. Applications shall, in general, be submitted not later than the first day of October in the academic year in which the applicant proposes to begin his course. But the authorities specified in Regulation 5 shall have power to consider applications submitted at other times.

5. The Registry shall forthwith communicate each application to the Chairman of the Special Board of Studies with which the proposed course of advanced study or research appears to be most nearly connected. The Chairman may from time to time appoint a member of the Degree Committee to act as his deputy in relation to such applications.

Applications for admission to courses of advanced study shall be considered and decided by the Chairman of the Special Board or by his deputy.

Applications for admission to courses of research, and exceptional applications under Regulation 3, shall be considered and decided by the Degree Committee of the Special Board.

6. The application shall not be granted unless it shall appear

i. that the course or courses of advanced study or research can conveniently be pursued within the University; and

ii. that the applicant has produced adequate evidence that he is qualified to enter upon the proposed course or courses.

7. When the application has been decided, the Chairman or his deputy shall inform the Registry of the decision; and the Registry shall inform the applicant. The Chairman or his deputy shall report the decision to the Degree Committee at its next meeting.

8. Before a person is admitted as an Advanced Student, he shall become a Member of a College or Hostel, or a Non-Collegiate Student. He shall not be allowed to count any term before that in which he has matriculated, unless he has satisfied the Council of the Senate that his matriculation had been deferred for grave and sufficient cause.

8a. An Advanced Student shall not be admissible as a candidate for any University Prize or Scholarship which is open only to Undergraduates and Bachelors designate in Arts or Law.

8b. For the purposes of any regulation respecting the standing of candidates for other University Prizes or Scholarships the first term kept by an Advanced Student shall be counted as his fourth term.

#### B. COURSES OF ADVANCED STUDY.

9. An Advanced Student, who has after the first day of the term in which he was admitted to a course of advanced study kept two terms by residence, may in the third or any subsequent term up to the tenth after such admission become a candidate for any of such Tripos Examinations or Parts of Tripos Examinations as shall have been opened to Advanced Students under the provisions hereinafter contained.

The name of every such candidate shall be sent to the Registry by the Praelector of his College or Hostel, or by the Censor of Non-Collegiate Students, as the case may be, at the same time and in the same manner as the names of other candidates; but a mark shall be added to his name showing that he is an Advanced Student.

No Advanced Student shall be allowed to be a candidate in a term later than the tenth term after his admission to a course of advanced study unless he shall have obtained permission from the Council of the Senate.

10. It shall be the duty of each Special Board of Studies from time to time to consider whether the Tripos Examination or a Part only of the

Tripas Examination with which that Board is connected shall be open to Advanced Students, and also what standard in the Examination must be attained by an Advanced Student in order that his name may be included in the list mentioned in the next Regulation; and their recommendation after approval by the General Board of Studies shall be submitted for adoption by Grace of the Senate.

In cases where two or more Special Boards are connected with a Tripas Examination, the duty prescribed by this Regulation shall be performed by such Boards in joint meeting assembled.

11. The names of such Advanced Students as satisfy the Examiners that they have attained the required standard in the Examination shall be placed in alphabetical order on a List, written or printed, signed by all the Examiners and distinct from the Tripas List, which shall be regarded as the authoritative list and shall be preserved in the Registry. The Chairman of the Examiners shall send both to the Vice-Chancellor and to the Registry a printed copy certified by him to be a correct copy of the authoritative list.

An Advanced Student who has failed to satisfy the Examiners that he has attained the required standard in the Examination shall not again become a candidate for the same Examination.

12. An Advanced Student who has satisfied the Examiners as prescribed in Regulation 11 shall be qualified to enter upon a course of research, provided that the subject of his research be approved by the Degree Committee of one of the Special Boards.

An Advanced Student who has in any term before the sixth after his admission to a course of advanced study satisfied the Examiners as prescribed in Regulation 11 shall if he continues to keep terms by residence and is not admitted to a course of research pursue a course of advanced study under such direction and supervision and under such other conditions as may be prescribed by the Degree Committee of one of the Special Boards; and the Chairman of the Special Board shall inform the Registry as to the person or persons who shall be authorised to certify that the Student has fulfilled the prescribed conditions.

16. An Advanced Student, who has after the first day of the term in which he was admitted to a course of research kept two terms by residence, may in the third or any subsequent term after such admission submit to the Degree Committee, not later than the division of the term, a dissertation containing an account of and embodying the results of his research. He shall state, generally in a preface to his dissertation and specifically in notes, the sources from which his information is derived, the extent to which he has availed himself of the work of others, and the portions of the dissertation which he claims as original. The dissertation shall be referred to one or more persons appointed by the Committee, who shall have power to examine the Student orally or otherwise upon

the subject thereof and shall report thereon to the Committee. Each of the persons so appointed shall receive a fee of two guineas from the University Chest.

The Committee shall have power to take into consideration together with the dissertation any memoir or work published by the Student which he may desire to submit to them.

17. If the Degree Committee be of opinion that the work submitted by the Student is of distinction as an original contribution to learning or as a record of original research, they shall draw up a statement to this effect, indicating therein the subject or subjects of the Student's research.

If the Degree Committee be of opinion that the dissertation submitted by the Student is not of sufficient merit to serve as a qualification for the Certificate of Research, they may decide that the Student shall not be allowed again to submit to them a dissertation until after the lapse of such time as they think fit, and the Chairman shall inform the Student of this decision.

18. The statement drawn up by the Degree Committee shall be forwarded by the Chairman to the Registry, who shall embody it in a Certificate of Research in a form approved by the General Board of Studies. No such Certificate shall be granted unless and until the candidate shall have kept by residence three terms after the first day of the term in which he was admitted to a course of research.

Each candidate before receiving his Certificate of Research shall deposit in the University Library a copy of his dissertation in a form approved by the Degree Committee.

19. A Student who has obtained a Certificate of Research and has kept by residence at least six terms shall be entitled to proceed to the Degree of B.A. and thereafter under the usual conditions to the Degree of M.A. and to other Degrees in the University.

#### D. ADMISSION TO COURSES OF RESEARCH OF PERSONS WHO ARE ALREADY GRADUATES OF THE UNIVERSITY.

20. A Graduate of the University who desires to be admitted as an Advanced Student with a view to obtaining the Certificate of Research described in Regulation 18 shall make application to the Chairman of the Special Board of Studies with which his proposed course of research appears to be most nearly connected; and the application shall be considered and decided by the Degree Committee of the Special Board.

21. The Degree Committee shall not grant the application unless they are satisfied

i. that the course or courses of research can conveniently be pursued within the University; and

ii. that the applicant has produced adequate evidence that he is qualified to enter upon the proposed course or courses.

22. If the application be granted, the Student shall become entitled to a Certificate of Research upon satisfying the requirements of Regulations 15—18, except that the Certificate may be granted when he has kept by residence two terms after the first day of the term in which he was admitted to a course of research.

23. The fees payable by an Advanced Student admitted to a course of Advanced Study for attendance at any Lecture or course of Practical Instruction shall be the same as those charged to Students in the various departments of University Study for admission to the respective Lectures and courses of Practical Instruction.

24. The fee ordinarily payable by each Advanced Student, admitted to a course of research, for working in one of the University Laboratories or Museums shall be such fee not exceeding £4. 4s. per term as the Pro-

The Professor or other officer in charge of the Laboratory or Museum may in addition require such payment as he may think fit for material or special apparatus supplied to the Student. - (1) That for each Term allowed they produce a certificate satisfactory to the Council of the Senate that the corresponding Term or Terms have been duly kept according to the Regulations in force at the University from which they have migrated.

Students of the institution who have continued Members of it for such length of time, not less than two years and have attended such lectures and passed such examinations as may be required from time to time by Grace of the Senate if admitted as members of the University otherwise than as an Advanced Student are deemed, for such purposes and under such conditions as the Senate may from time to time by Grace determine, to be entitled to both of the following privileges:—

- (1) to be exempted from all parts of the Previous Examination;
- (2) to reckon the first term kept by residence as the second, third, or fourth term of his residence.

## LOCAL EXAMINATIONS AND LECTURES.

THE extra-mural work conducted by the Local Examinations and Lectures Syndicate falls under three heads: I. The Local Examinations; II. The Examination of Schools; III. The Local Lectures.

### I. THE LOCAL EXAMINATIONS.

#### (i) LOCAL EXAMINATIONS FOR SENIOR AND JUNIOR STUDENTS.

These Examinations were instituted in 1858. They are conducted at various places throughout the country by means of printed papers set by a central body of Examiners and worked by the candidates in the presence of Examiners sent down for that purpose. For seven years the Examinations were open to boys only. In 1865, a Grace of the Senate admitted girls also to the Examinations for 1865, 1866, 1867; and in 1867 girls were put permanently on the same footing as boys. The Examinations in the year 1907 were held for the first time in July as well as in December.

Candidates are admitted to the Examinations without limit of age, but Senior Students cannot be placed in one of the Honour Classes unless they are under 19, and Junior Students cannot be placed in one of the Honour Classes unless they are under 16. Every Candidate pays to the Syndicate a fee of £1. The local expenses of providing an Examination room, stationery, &c., are borne by the local Committee of Management at each centre of Examination, and to meet these expenses a local fee is charged to each Candidate by the local Committee. This fee is usually from five to ten shillings.

Senior Candidates can procure exemption from the Previous Examination on the following terms:—

From Part I. by passing in the Gospel (including the Greek text), in Latin, and in Greek, or, from the Classical Papers only by passing in Latin and Greek;

From the Mathematical Papers of Part II. by passing in Arithmetic, Geometry, and Algebra; from the English Essay by passing also in English Composition; and from the Paper on Paley's *Evidences* by passing also in Religious Knowledge or in Logic;

From the Additional Subjects by shewing a sufficient degree of merit either in Applied Mathematics, or in French, or in German.

The Senior Certificate is also accepted under certain conditions as affording exemption from Responsions in the University of Oxford, from the Matriculation Examination of the University of London; of the Universities of Manchester, Liverpool, Leeds, and Sheffield; of the University of Birmingham; and of the University of Wales.

Other exemptions afforded by the Junior and Senior Local Examinations are set forth in the Regulations.

### (ii) HIGHER LOCAL EXAMINATION.

Examinations for Women above 18 years of age (now above 17 years of age) were instituted in 1869, and made permanent in 1871. They were thrown open to Men in 1873. They take place in June, and there is a supplementary Examination in December. Candidates must have completed seventeen years of age before the first day of the month in which the Examination is held, or must have obtained a Cambridge Senior Local Certificate, an Oxford Senior Local Certificate, or a Higher Certificate of the Oxford and Cambridge Schools Examination Board or a Matriculation Certificate of the University of London. Each Candidate pays to the Syndicate a fee of £2, and £1 for each subsequent Examination.

Candidates are exempted from the Classical papers of Part I. of the Previous Examination if they pass at the same Higher Local Examination in the Latin and Greek set books and Latin Unprepared Translation and from the paper on the Greek Gospel if they also pass at the same or another Examination in the Greek Text of the New Testament: from the Mathematical papers of Part II. if they pass at the same Examination in Arithmetic, Geometry and Algebra; and from the English Essay if they also pass at the same or another Examination in English Language and Literature: and from the paper on Paley's *Evidences* if they also pass at the same or another Examination in General Old Testament History or General New Testament History or Logic: from the Additional Subjects if they pass in French or German or Statics and Dynamics.

A Higher Local Honour Certificate admits to Tripos Examinations members of Girton and Newnham Colleges who have resided during a sufficient number of terms, provided that the Student has passed in Group B and in Group C.

The Higher Local Examination is accepted as a qualification for the admission of Women to the First Public Examination in the University of Oxford provided that they have passed in (a) Arithmetic, (b) two of the five Languages Latin, Greek, French, German, Italian, (c) either Geometry or Algebra.

### (iii) PRELIMINARY LOCAL EXAMINATION.

A Preliminary Local Examination, to which only the Students under 16 are admissible, and in which no Students are placed in any Honour Class unless they are under 14, was instituted in 1895. This Examination is held in July and December at the same time as the Examinations for Senior and Junior Students. Every Candidate pays to the Syndicate a fee of 10s. 6d.

## II. EXAMINATION OF SCHOOLS.

The Syndicate sends Examiners to inspect and report upon schools which make application. In 1907 seventy-five schools were thus examined.

## III. LOCAL LECTURES.

The purpose of the Local Lectures and Classes (popularly known as "University Extension") is to provide the means of higher education for persons of all ranks and of both sexes engaged in the regular occupations of life. Lecturers are sent to deliver courses of lectures in groups of towns, each lecture being preceded or followed by a "class" for more detailed instruction. The charge, inclusive of everything but local expenses, for a course of 12 lectures and classes is £50. The first courses were arranged by the University of Cambridge in 1873, and the work has been taken up by other Universities and has been carried on in the country with increasing success. In 1886 powers were obtained to affiliate Lecture Centres to the University, and the following are now affiliated:—Derby, Colchester, Exeter, Leicester, Northampton, Portsmouth, Southport.

Full particulars as to the Local Examinations and the Examination of Schools can be obtained from Dr J. N. KEYNES, Secretary for Examinations, and as to Local Lectures from the Rev. D. H. S. CRANAGE, M.A., Secretary for Lectures, at the Office of the Syndicate, Syndicate Buildings, Mill Lane, Cambridge.

## OXFORD AND CAMBRIDGE SCHOOLS EXAMINATION BOARD.

THIS Board was formed in accordance with Articles of Agreement signed on Nov. 8, 1873, by representatives of the two Universities.

The Board examines such Schools as have a regularly constituted Governing Body, or prepare a fair proportion of their boys for the Universities, or in any other way give evidence of providing an education of the highest grade. It also grants Certificates to boys under education at School, who are examined under its authority. A Certificate Examination may be combined with the Examination of any School to which the Board appoints Examiners. Candidates under education at a School to which the Board does not appoint Examiners, and from which only a few Candidates are entered, are examined at a few convenient centres. The Board also undertakes the Inspection of Schools at any time during the School year, except when the Examinations are going on.

A School Examination, held under the authority of the Board, may be of one or more of the following kinds:—

- (a) Such an Examination in the general work of the School, extending either to the whole School or to portions of the School to be selected with the approval of the Board, as will enable the Examiners to report generally upon the School work.
- (b) Such an Examination in any main subject or subjects of instruction, extending either to the whole School or to portions of the School to be selected with the approval of the Board, as will enable the Examiners to report on the standard reached in that subject or subjects.
- (c) Such an Examination of the highest division of the School as will enable the Examiners to report upon the general work of that division, and, if required, to place the boys in order of merit, and to award exhibitions, scholarships, and prizes.

There is one Examination for Higher Certificates in each year in July.

The Examination for Higher Certificates includes the following Subjects:—Group I. (1) Latin. (2) Greek. (3) French. (4) German. (5) Spanish.

(6) Arabic.

Group II. (1) Elementary Mathematics. (2) Additional Mathematics.

Group III. (1) Scripture Knowledge. (2) English. (3) History. (4) Geography.

Group IV. (1) Natural Philosophy (Mechanical Division). (2) Natural Philosophy (Physical Division). (3) Natural Philosophy (Chemical Division). (4) Experimental Science. (5) Physical Geography and elementary Geology. (6) Biology.

Every Candidate is required to satisfy the Examiners in at least four Subjects taken from not less than three different groups, and no Candidate is permitted to offer more than six Subjects. If however a Candidate satisfy the Examiners in one subject taken from Group II. or IV., he may offer three subjects taken from Group I.; also a Candidate who already holds a Certificate may offer four subjects taken from not less than two different groups.

The Board also examines Girls under the same Regulations as for Boys, with four additional Regulations providing for the option of substituting Italian for Greek, and Music for Natural Philosophy (Mechanical Division), and for being examined in Drawing, and for passing the required four subjects two at a time.

About five weeks after the Examinations, a list of all Candidates who have passed is published. To each successful Candidate a Certificate is given, signed by the Vice-Chancellors of the Universities of Oxford and Cambridge, specifying (a) the subjects in which the Candidate has passed merely, (b) the subjects in which he has passed with distinction. These Certificates confer exemption, under certain conditions, from various Examinations held by public bodies, including the Previous Examination in the University of Cambridge, and the Examination for Responsions in the University of Oxford.

There is an Examination for Lower Certificates in each year, in July.

This Examination includes the following subjects:—Group I. (1) Latin, (2) Greek, (3) French, (4) German, (5) Arabic; Group II. (1) Arithmetic, (2) Additional Mathematics; Group III. (1) Scripture Knowledge, (2) English, (3) English History, (4) Geography; Group IV. (1) Mechanics and Physics, (2) Physics and Chemistry, (3) Chemistry and Mechanics, (4) Experimental Science, (5) Botany; candidates may also offer Geometrical Drawing.

Candidates must satisfy the Examiners in five subjects taken from not less than three groups, of which Groups I. and II. must be two; and must answer the questions so as to satisfy the Examiners that they have an adequate knowledge of English Grammar and Orthography.

There is an Examination for School (or Leaving) Certificates in each year, in July, and another in December.

## CAMBRIDGE UNIVERSITY DAY TRAINING COLLEGE.

Committee: Oscar Browning, M.A., Fellow of King's College, Principal; W. Durnford, M.A., Fellow of King's College; Rev. W. T. A. Barber, Caius College; Dr W. H. D. Rouse, Christ's College; W. G. Bell, M.A., Trinity Hall; Rev. F. E. Hutchinson, M.A., King's College; Rev. C. J. N. Child, M.A., Christ's College; L. A. Borradaile, Selwyn College.

Principal of the Training College: Oscar Browning, M.A., Fellow of King's College, University Lecturer in History.

Vice-Principal, Master of Method and Lecturer on the Theory, History, and Practice of Education: S. S. F. Fletcher, M.A., King's College.

Assistant-Master of Method: F. G. Blandford, M.A., Corpus Christi College.

Assistant Lecturer in Education: C. Fox, M.A., Christ's College.

Lecturer on School Management: J. Wallis, M.A., Head Master of Paradise Street School.

The College consists of two departments, a primary and a secondary.

1. Candidates for admission to the Primary Department must be qualified as Three Year Students reading for a Degree according to the Regulations of the Board of Education, and must have complied with the conditions laid down by the Board of Education for Students taking University Degrees.

2. Before candidates are admitted they will be required to produce (1) a certificate of birth; (2) satisfactory testimony as to moral character from two responsible persons; (3) testimonials from Head Teachers and Managers of Schools in which they have been trained. Also in accordance

with Paragraph 10 of the Board of Education's Regulations for the Training of Teachers, "(a) the medical officer of the College must certify that the state of their health is satisfactory, and that they are free from serious bodily defect or deformity; and (b) they must sign a declaration that they intend *bonâ fide* to adopt and follow the profession of teacher in a Public Elementary School or Training College."

3. All students must become matriculated students of the University, either as members of a College or as Non-Collegiate Students. They must enter the Training College at the beginning of October and cannot be admitted after October 21, the day fixed by the University for matriculation. There is no examination for matriculation at Cambridge. The University year begins in October and ends in June: it consists of three terms amounting to about twenty-five weeks in all. Residence is obligatory during this period, but students of the Day Training College may find some further residence necessary in order to complete their practical training.

4. A fee of two guineas is charged for admission to the Day Training College but the whole of the grant allowed by the Board of Education will be paid to the students in instalments as received.

It has been found by experience that the average expenditure of Members of the Day Training College residing as Non-Collegiate Students, economically in lodgings, during the twenty-five weeks of necessary residence, is between £65 and £75 a year, exclusive of clothes and travelling expenses.

Since the opening of the College a number of Students have held Exhibitions or Scholarships given by different Colleges or by the Non-Collegiate Board to members of the Day Training College. It is probable that this assistance will be continued in the future, but the exact number available in each year is uncertain.

Students in the Secondary Department must be matriculated members of the University, and must have passed at least the Previous Examination. The course of training is for a year, which may be spent wholly at the Training College, or partly under supervision in some school approved of by the Committee. They must attend such courses of lectures on the Theory, History and Practice of Education, and do such work in connection with them as the Committee may from time to time prescribe. They must attend such Criticism, Model and Visiting Lessons given in connection with the Training College as the Committee may order. They shall give at least a week's teaching in a Practising School connected with the College during each term they are in residence.

The Theoretical work consists of lectures on the Theory, History and Practice of Education, on School Method and other kindred subjects, given by the Lecturers, who also guide the reading of the students and set and correct papers done by them. The Practical work consists of criticism lessons; of model lessons, visiting lessons, and other approved methods of teaching the Practice of Education. Facilities are also provided for students to practise in schools under competent supervision.

The University grants a certificate of theoretical and practical efficiency to persons who have satisfied the examiners in a written examination held twice a year, in June and December; and who, being presented by the Training College, have satisfied the examiner in Practice, who will take into account reports on the practical work done by the student.

The fee payable for the above courses is £7. 10s. a term.

Applications for admission and enquiries are to be addressed to the Principal of the College, Oscar Browning, M.A., King's College, Cambridge.

8. That printed lists of the names, residences, and occupations of the applicants, together with the number of sets of lodgings in each house and their respective prices, shall be sent as soon as practicable after the last day appointed for receiving applications to the Master, Tutors, and Deans of every College, accompanied by a request that any remark or objection, which it may seem desirable to make, may be sent in writing to the Vice-Chancellor for the consideration of the Syndicate before the time of licensing, or that the person objecting may attend the Syndicate on the day of licensing and confer with them in person.

9. That registers shall be kept of the names, residences, and occupations (1) of all persons to whom licences are granted on any licensing-day, together with the number of sets of lodgings in each case, and their respective prices, (2) of all persons to whom the Syndicate have refused to grant licences, and (3) of all persons whose licences have been suspended or revoked by the Syndicate.

10. That no licence shall be granted to any person for more than one year, nor beyond certain limits in the Town, such limits to be defined and published from time to time by the Syndicate.

11. That in special cases the Syndicate may grant provisional licences, to continue in force until the end of the next Michaelmas Term, or for any shorter period.

12. That every certificate of licence shall be signed on behalf of the Syndicate by the Vice-Chancellor or his deputy and the two Proctors.

13. That a statement shall be sent after every licensing day to the Master, Tutors, and Deans of every College, containing the names, residences, and occupations of the persons to whom licences have been granted, together with the number of sets of lodgings in each case and their respective prices.

14. That before receiving a licence every applicant shall sign the following declaration and promises:

I declare that the house in which I desire to let lodgings is in my own occupation.

I hereby promise that :

1. I will not let my lodgings to any Student without written permission from his Tutor, and I will not require him to take them for more than one Term certain :
2. I will shew my licence if required to any Student desirous to take my lodgings :
3. Before I receive as lodger any person who is not a member of the University I will obtain written permission from the Syndicate; and also from the Tutor of each Student lodging in my house at the time :
4. I will report to the Syndicate the Names and Colleges of all Students lodging in my house, with such other particulars as the Syndicate may require :
5. At Ten o'clock every night I will lock the outer doors, and securely fasten the shutters of the ground-floor of my house, and I will take means to prevent any one from entering or leaving the house between 10 P.M. and 6 A.M. without my knowledge; and between those hours the outer doors of my house shall not be opened, except by the master or mistress in person, or by a representative approved by the Syndicate :
6. That I will not allow on any account a key of any outer door of my house to any lodger :
7. I will note down the time after Ten o'clock (or such earlier hour as the University or College authorities may direct) at which any Student lodging in my house enters or leaves the house, and will deliver or send by a responsible person a statement thereof once a week (or oftener, if required) to the College authorities, with a special note of occasions on which such Student has so entered or left without his academical dress :
8. In case a Student lodging in my house has not entered or left the house after Ten o'clock during any week I will send a statement to that effect at the end of the week :
9. I will report to the College authorities early the next morning if any Student lodging in my house shall (1) leave the house after 10 P.M., (2) enter after midnight, (3) being confined to gates, enter after the appointed hour, or (4) pass the night out of his lodgings :
10. I will allow none but inmates of the house to have access to the rooms of any Student lodging in my house after 10 P.M., without written permission from his Tutor, except in cases of illness or other urgent necessity :
11. I will not supply or receive into my house for any Student a dinner or supper for more than three persons without written permission from his Tutor :
12. I will not supply or receive into my house for any Student provision for any entertainment whatever on Sunday without written permission from his Tutor :
13. I will not admit hired musicians into my house without written permission from the Syndicate :
14. In case any person in my house shall be suffering from any infectious disorder, including consumption or any other form of tubercular disease, either during Term or in Vacation, I will at once inform the Syndicate.

Ordinary Licences may be granted for rooms in houses situated within the Precincts of the University, which are defined as extending two miles and a half from Great St Mary's Church, measured in a direct line.

A person *in statu pupillari* keeping terms by residence must reside within the precincts of the University

- (1) In some College or Hostel, or
- (2) In a set of lodgings for which licence has been granted by the Lodging-Houses Syndicate, or
- (3) With his parents or parent, or
- (4) In his own, or in his hired house, or with his relatives, or, in exceptional cases with persons other than his relatives, provided that in each case the permission of the Lodging-Houses Syndicate shall have been obtained on application from the Head of his College or Hostel, or in the case of a Non-Collegiate Student, from the Chairman of the Non-Collegiate Students Board, or
- (5) In the case of an Advanced Student, under special conditions approved in each case by the Lodging-Houses Syndicate, on application from the Head of his College or Hostel, or in the case of a Non-Collegiate Advanced Student from the Chairman of the Non-Collegiate Students' Board.

The Syndicate may extend their permission, in such cases, backwards so far as to include the whole of the current term in which such permission is applied for and granted, but no further backwards.

The Syndicate may grant to any person *in statu pupillari*, who has on account of illness or of an accident been removed to a Hospital or Nursing Institution within the precincts of the University, permission to count for the purposes of residence the days in term-time passed therein; provided that in each case the application for such permission accompanied by a suitable medical certificate is made by his Tutor or, in the case of a Non-Collegiate Student, by the Censor, and provided further that the Hospital or Institution has been approved by the Syndicate.

- m Highly distinguished in the Examination for Chancellor's Medals.

## CLASSICAL TRIPOSES. NEW REGULATIONS.

*The Examinations are held in Easter Term.*

A Student who has obtained Honours in Part I. may be a Candidate for Honours in Part II. following, provided that he has then kept seven terms, and that twelve terms have not passed after the first of the seven.

The names are arranged alphabetically, in Part I. in each division of each class, in Part II. in each class.

In Part II. the letters *b*, *c*, *d*, *e*, appended to the name of a candidate denote the section or sections for which he is placed in the first class. The combination of two letters thus, "*b* with *c*" or "*c* with *d*," indicates that a candidate has obtained a first class on the combined result of two sections. The letter *a* indicates that the candidate to whose name it is appended has also attained a first class standard in section A. The asterisk denotes special distinction.

A Student who has obtained Honours in Part I. or in some other Honour Examination, may be a Candidate for Part II. provided that he has kept seven terms and that twelve terms have not passed after the first of the seven.

In Part II. the italic letters appended to the name of a candidate denote the subject or subjects for which he is placed in the first class. The letter *a* denotes the compulsory subjects; *a*<sub>1</sub>, Ethics and Metaphysics; *a*<sub>2</sub>, Ethics and Political Philosophy. The special subjects are denoted by *b*, History of Philosophy; *c*, Advanced Psychology and Psychophysics; *d*, Advanced Logic and Methodology; and *e*, Advanced Political Economy. The combination of two letters, thus *b* with *c*, indicates that a candidate has obtained a first class on the combined result of the two subjects. The asterisk denotes special distinction.
